Labbook notes to self (delete before submission):

This section is a quick place to note down how i keep this labbook, or various bits of markdown/quarto syntax for later ref. Its not part of the main labbook, should be deleted later; i just need a place to help keep labbook formatting consistent or remind myself how to quarto.

Title organisation:

For consistency sake, the title/subtitling should ~follow:

Main Title (#)

A section of multiple days

dd/mm/yyyy (##):

The log for a given day

Task title (###)

The log for a particular task - title should preface what sort of task it is (I.E, Reading notes, Coding notes,...)

sub-subsection (####)

Subdivider for a task

Quarto notes to self:

Sidenotes and boxes:

Can make sidenotes and textboxes using the following notation:

```
::: {.column-margin}
Insert sidenote here!
:::
```

Insert sidenote here!

```
::: {.callout-note title="Insert textbox title here!"}
Insert textbox contents here!
:::
```

Insert textbox title here!

Insert textbox contents here!

figures:

Basic figure:

```
![Caption](pathToFig){#fig-figRef} // Note the "fig-
" prefix is mandatory for crossref
```

Subfigures:

```
::: {#fig-figref layout-ncol=2}

![subCaption1](pathToFig1){#fig-subFigRef1}

![subCaption2](pathToFig2){#fig-subFigRef2}

Global caption
:::
```

Eqs:

Note, eqs w/crossref:

```
$$
eq here
$${#eq-eqRef}
```

vs general maths notation:

```
$$
```
